To Whom It May Concern:

Hardwood Floors by Manny refinished our 40 year old oak plank flooring and stopped almost all of the squeaking that had gradually become worse over the years. We could not be more pleased with the outcome. Manny arrived exactly when he said he would, completed the work at the agreed upon price, and our floor now looks beautiful. We were also amazed at how little dust there was during and after his sanding. We highly recommend Manny for the excellent quality of his work.
