

Manny

We would like to take this opportunity to let you know that we are quite pleased with the basement stairs that you installed for us. We love the look they add to our home and are impressed with your talents and professionalism.

You were here when you said you would be and you dedicated your time to the job at hand. In addition, you left our home in the same clean manner in which you found it on the day you began the job.

We enjoyed visiting with you as you did your work and will certainly be willing to recommend you to any of our friends should they choose to have this type of work done in their homes.
