

Manny,

Now that we're slowly putting our home back together (and have furniture again), we have been sitting back and just enjoying the work you did for us. The newly installed hardwood in our formal dining and living rooms blends seamlessly with the prior flooring we previously had in place.

The new dark walnut color really helped update our home and give a new look along with the new doors and trim we installed. Your work on installing hardwood on our stairway and refinishing looks awesome. Now that it's all done, I'm so happy we listened to your ideas and recommendations. It's really hard to believe it's the same home.

We obtained several estimates and what we really admired about you was evident from day 1 with your passion and knowledge about flooring. This passion and along with your professionalism and quality work was evident every day for our project. When we get ready to refinish additional rooms, I would not even consider having anyone but you perform the work.

Thank you again for doing such a great job and helping us transform our home.

Best regards,
Rex & Lori Klomparens
