

We just can't say enough about Manny and his work on our floors. We were very worried, with having original wide planked heart yellow pine floors, about finding someone who knew how to work with them. They are soft, so we were nervous about hiring someone that might damage them. We were so happy to find Manny's website. When he came out for his estimate, he was so honest and professional. He had plenty of experience with historic floor preservation and that eased our minds. We knew he was the one for the job. We set our appointment with Manny and we were so excited for the opportunity to have our floors restored. They had been painted numerous times and carpeted over, so we had never seen their beauty before. Manny worked his magic and WOW, the floors are absolutely beautiful! He did an amazing job with them. He explained everything he was doing to us and even told me how to care for them when they were finished. We only did phase 1 of our floor restoration and can't wait to have him back (soon!!) for phase 2! We get so many compliments on our floors and I can just tell the house is happy to have this beautiful wood shining once again. We HIGHLY recommend Manny for any wood flooring issues that anyone might have. His prices are great and he is thorough and takes such care and pride in his work. We are so thankful that we found him and didn't end up with someone else that would have ruined our priceless floors. Thanks so much Manny and we can't wait to have you finish the rest of our home.
