**COMMENTS: Please find seven drawings for your review. These drawings show some basic ideas for your renovation project home. I will call your wife on Tuesday for your comments. By the way, when we met your wife to measure the property, we briefly met the gentleman who deals with hardwood flooring. At the time, we didn't realize that he was the person who was installing a new floor for a client of ours that we were installing a new kitchen for. My only comment is that our client is extremely happy with pricing and quality of services received. He has done a nice job for our client and I also intend to have this person do some bids for my own home.**

**Thanks Again**
