

July 2011

This past spring we had Manny sand and refinish the original hardwood floors in our two smallest bedrooms. One of the floors previously had worn carpeting covering it and the wood underneath was in bad shape, while the floor in the second room had a large stain on the wood and had never been properly sealed. Manny made those floors look brand-new and we still can't get over how beautiful they look!

We are fairly new homeowners so we weren't sure what the process would entail; Manny and his assistant arrived on time both days and did very thorough work. We were expecting to have to deal with sawdust in other parts of the house afterward, but there was no mess left. They cleaned up very well both days.

We have already recommended Manny to a few of our friends, and when we get around to having the other two bedroom floors refinished we will be giving Manny another call!
